Information & Registration

Registration for most ISB+ activities is online

The computer database will send out the invitations to register in a random order—a type of lottery on Wednesday, September 1 at 10:00. We advise you to register for climbing, cooking, martial arts and swimming as soon as you receive the emailed invitation as these activities fill up quickly. You may make arrangements with a friend to register for your family. However, on-line registration is open for several days, so you do not have to register the first day for most activities. Please note that tennis has a separate telephone registration; tennis fills up immediately!

Of course, you may also register by email, by fax or in person in the ICC, starting the second day of registration. It is not possible to register by telephone.

Choose activities carefully. Once online registration closes, you must pay the full fee even if you cancel an activity.

Registration Procedure:

1. Make certain now that ISB external relations have your current email address(es)—the one(s) to which you would like ISB emails and registration details to be sent. (dbasecorrections@isb.be)
2. Have access to a computer. You must be able to access your email through the internet if you are using a friend's computer or a computer on campus (ICC, Château or libraries).
3. Be at a computer on Wednesday, September 1 at 10:00 or at any time during the registration period so that you can follow the simple registration instructions. Once you have received the invitation to register, you may actually register at any time during the registration period.
4. Print out a confirmation of your activities for your personal use.

Please note that it is often possible to join an activity during the semester. Contact the ICC office.
