## SATELLITE CLINIC

A satellite clinic is a private clinic located within a school setting, and involves Maximum Potential providing services specifically to the school clientele and the staff.

Maximum Potential provides registered, certified, licensed and insured Specialist Therapists to the facility, for program implementation.

The program involves the following: (billed privately to the parents)  
Evaluation of:

- neuromuscular status
- gross motor skills
- fine motor skills/handwriting
- sensory processing
- visual perception skills
- oral-motor skills

Treatment of:

- sensory integration skills
- gross motor skills
- fine motor/handwriting skills
- visual perception skills
- self-help skills
- oral motor skills

Parent training to:

- increase understanding of sensory integration
- improve awareness of "play" and it's role in gross/fine motor skill development
- provide home treatment programs to aid in the therapy process

Teacher training workshops to:

- Increase understanding of sensory integration
- Implement classroom strategies
