A WELCOME FROM THE DIRECTOR

Dear ISB Parents, Alumni, Faculty, Staff, Friends, and Community Partners,

It is my sincere pleasure to welcome you to ISB Night 2016! Obviously, I am very excited about this event myself because it is the first of hopefully many ISB Nights for me to enjoy. This gathering of so many members of the ISB family is truly a highlight each and every year. The phenomenal food, great music and dancing, and incredible array of international silent and live auction offerings all contribute to an atmosphere of joy and pride in our special school community.

In addition to having fun with friends and family, I encourage all of us to use ISB Night as a way of remembering what is most important at ISB - a sense of community characterized by the principles of internationalism, inclusion, innovation, and integrity. This is a school that remains committed to international and intercultural diversity. It is a school that is the envy of so many others in the way it embraces a very wide spectrum of learner profiles. It is a school that, for almost 65 years, has honored its legacy while always innovating for the future. And it is a learning organization guided by moral integrity as it strives to empower young people to become engaged, ethical citizens. This year's ISB Night celebrates all of what makes the school so special by highlighting the important role innovation plays in the school's ongoing journey to ensure everyone is included, challenged, and successful.

I also want to publicly recognize one of the most important community features of ISB Night - the people who have organized and contributed to this wonderful event. Parent volunteers, community sponsors, the hundreds of individuals who have donated gifts to the auction, and many more. On behalf of the entire ISB community, thank you for your support and generosity. And, of course, thanks to Faradee Rudy and the entire team in the school's Advancement Office for making tonight a reality. Let's all congratulate and thank the organizers of this event through our own active participation and support throughout the night. Most of all, let's have some fun!

My very best to each and every one of you,

Lee

Your generous participation at ISB Night 2016 will support

LEARNING INNOVATION AT ISB

through the 2015-16 ISB Annual Fund

ISB is preparing students for a world that will require innovative solutions to problems that we have yet to identify. Our students will need to be prepared to devise creative, interdisciplinary, and ethical responses to these challenges. Developing the skills of creativity, problem-finding, problem-solving, design thinking, and communication lie at the heart of ISB's commitment to learning innovation, and will be key to this future.

Preparing our students to take on tomorrow's challenges is a responsibility in which we all share, and which requires increased investments in learning tools, technologies, people, programmes, and facilities. And, while ISB uses tuition fees to cover nearly all of the school's operating costs, we are increasingly reliant on private support to realize these increased investments that distinguish ISB from so many other international schools. Your participation in the silent and live auctions at ISB Night will help our school advance in three critical areas:

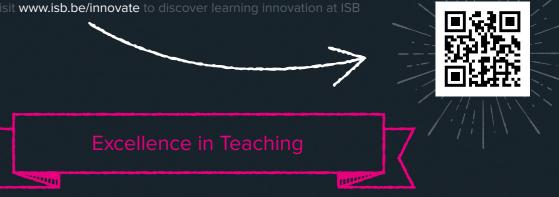

Ensuring our students have new and improved opportunities to develop innovative skills and apply those skills in authentic learning situations, through programmes like:

Online courses for Middle School students to facilitate personalized learning.

Enhanced community outreach via our service learning programmes in the High School.

Scan the QR code or visit www.isb.be/innovate to discover learning innovation at ISB

Ensuring we have the very best teachers, with access to the most relevant and timely professional learning experiences, through opportunities like:

Ensuring our campus can meet and facilitate the learning needs of our community, through enhancements including:

Construction of an open plan ECC Playground developed for Preschool/Pre-Kindergarden students that provides a learning space where students can select their own materials for play and construction from our recycling centre.

Creating and resourcing maker-oriented "Mini-Labs" in the Elementary School, including a Fab Lab for designing and making tangible objects, a Media Lab for digital production, and a SAM Lab focused on coding and prototyping.

Installing Collaboration Screens on each floor of the Middle School.

Creating a Design & Technology lab in the High School.

ISB is deeply grateful to the many auction donors, corporate and community partners, and ISB Night bidders for their generous support. Thank you for helping make the ISB experience even stronger for our students!

USING THE SILENT AUCTION BID SYSTEM

Insert your Smartcard into the slot at the top of the keypad, with the chip facing you.

When the Smartcard is inserted correctly, you will see your name at the top of the screen. Enter the item number you would like to bid on and press the green "OK" button.

The keypad automatically tells you the current highest bid for the item and who is holding the highest bid on that item. If you would like to place a bid on the item, press the green "Bid" button.

Enter the amount you would like to bid on that item with the number keys. To confirm your bid, press the green "OK" button. The screen will then indicate that you are the highest bidder.

You may bid on the silent auction at any time during the event until the closing announcement has been made. If your bid is the highest, the display panel will reflect this. If your bid is less than the current highest bid, the display panel will tell you that the current leading bid is held by another guest.

> Please return your bidding card and device at the end of the event.

AUCTION RULES AND GUIDELINES

REGISTRATION

All guests must sign in at the registration tables on arrival. ISB families will be invited to sign a form stating that if they are the winning bidder in the silent or live auction, or if they make a donation via the electronic bidding handsets, they authorise this amount to be charged via their next bi-monthly ISB invoice.

Non-ISB guests will be invited to supply their credit card details, to be charged in the event that they make a winning bid in the silent or live auction, or make a donation via the electronic bidding handsets. Guests may also sign at the end of the event but should be aware that this may delay their departure.

All guests will be given a named electronic bidding handset which will be found on their dining table. Guests attending as a couple will receive one handset between them. All bids are binding offers to purchase. Once made, bids cannot be withdrawn.

You, the bidder, are financially responsible for the use of your bidding handset and named Smartcard.

In the event of a dispute on a bid, the ISB Auction Committee or the auctioneer will act as the final authority in determining the bid.

All sales are final. Items are not refundable to merchants for exchange or credit.

Certain items will not be sold below minimum bids.

Some donations have a restricted time of use. Please check the details of the items purchased for valid dates.

If there is no date specified, items and services are valid until 23 April, 2017.

All auction items will be available to be collected at the close of the evening. Please stop by the registration tables to collect your items before you leave. Assistance will be given with large and/or heavy items if needed.

Auction payments are not considered as US (or any other country) taxable donations.

Reservations for private homes, condos, tickets, private dinners, lessons, etc. must be mutually arranged between the successful bidder and the donor unless otherwise specified. We suggest that initial contact be made within 14 days of the auction.

The Auction Committee has endeavoured to catalogue and describe items and services correctly, but everything is sold "as is".

Certain auction items and/or services may have restrictive use or other qualifications which may affect the value.

Many of the items, such as private vacation homes, are not transferable.

SILENT AUCTION RULES

Silent Auction display is available to view on the night of the event from 18.00–20.00. Bidding will then be possible from 20.00–22.15 during dinner using the electronic handsets.

Please be advised that each item has a specified minimum starting bid and minimum incremental bid.

Each increase in bid must equal or exceed the minimum incremental bid amount stated on the handset to constitute a valid bid.

The bidder will be able to see on the handset the current leading bid information, who has made that bid, and what the next minimum bid should be.

The Silent Auction will close at around 22.15 on the evening of the event. Warnings will be given 10 minutes and 5 minutes prior to the close of the bidding. The auctioneer will announce the final moment of bidding.

The winning bidders will be listed on-screen at the close of the auction.

The live auction will begin after dinner and will continue without interruption until all live auction items have been auctioned.

Your bidding card contains your personal bid number.

A bid for the live auction is entered by raising your card and being recognised by the auctioneer.

Items are listed numerically in the programme, and the auctioneer will follow this sequence during the auction.

An acknowledged bid is a binding offer to purchase the items.

The auctioneer may specify a minimum price at the start of the bidding, and may remove an item from the line up if it doesn't get sufficient bids.

On the fall of the auctioneer's gavel, the highest bidder will be the purchaser of the item.

In the event of a dispute, the auctioneer will act as the final authority and will determine the winning bidder. This decision will be final.

INTRODUCING OUR AUCTIONEER, CHARLIE ROSS

THE PERSON

For those who attended ISB Night last year, Charlie needs no introduction. We were all thoroughly entertained as he helped us raise a fantastic amount for the 2014–15 ISB Annual Fund. What you might not know is that as well as being a top auctioneer in the UK, US and Europe, Charlie makes regular appearances on UK BBC TV programmes such as The Antiques Road Trip and Bargain Hunt.

Charlie Ross ran his own auction house in Woburn, UK for over 25 years and has conducted a wide variety of auctions ranging from antiques, commercial and residential properties, through to vintage cars and Intellectual Property. He is also resident auctioneer for MacDougall's, one of London's leading Russian Art specialists. He is much in demand at charity auctions, which he conducts throughout the world.

Charlie will be running our Live Auction at 21.30 and will be with us for the entire evening on ISB Night.

The apartment, which can comfortably accommodate four guests, comprises a large living/dining room, a fully equipped kitchen, a laundry room and two bedrooms, each with en suite bathroom. Included with your apartment stay are free entrance tickets to the Metropolitan Museum of Art, skip-the-queue reduced access to MoMa, a comprehensive list of the best dining spots in NYC, and complimentary high speed internet.

The perfect wine for your next celebration. La Marzelle St. Emilion Grand Cru Classé is the family wine of Michèle Galle. Review by Robert Parker: "This grand cru St. Emilion is produced from a 33-acre vineyard planted in the gravelly soils near Figeac. Dr. Alain Raynaud is the consulting oenologist and the 2010 may be finest La Marzelle I have yet tasted. A blend of 80% Merlot and 20% Cabernet Franc, it exhibits a deep ruby/ purple color along with pure, fresh notes of blueberries, black raspberries and spring flowers. Medium to full-bodied, rich and moderately tannic, it should evolve nicely for 10-15 years."

Twelve Bottles of Puligny-Montrachet Les Meix 2013 Wine

This rich, round, floral chardonnay has a dense and concentrated structure and pairs well with grilled fish, scallops with bechamel, gruyere, and light meat dishes. It is characterized by its minerality and elegance and is best from now to 2019. Robert Parker rating of 89 points. Comments from Robert Parker: "Here too there is enough post-bottling reduction present to dominate the nose. On the plus side there is a really lovely palate impression to the cool, pure and vibrant medium-bodied flavors that exude a subtle minerality onto the citrusy and mildly austere finale."

Thank you to the Brenninkmeijer Family

The origin of the Château of Meursault dates back to the 11th century and was owned by the Capetian Robert 1st, Duke of Burgundy and son of the King of France Robert II. The magnificent cellars, which date from the 12th, 14th and 16th centuries, extend beneath the Château and its outbuildings, can house up to 700 000 bottles and more than 2000 barrels of wine.

The vineyard is spread over 60 hectares, exclusively cultivated in the Côte de Beaune and the vines are shared out over more than one hundred parcels of land. In accordance with the law in Burgundy, the grape varieties of Pinot Noir for the red wines and Chardonnay for the white wines, are the only varieties used to make the wines of the Château of Meursault. The Château of Meursault produces over 24 different wines.

Oud Beersel Brewery: Tour and Beer Tasting - Two Tickets for Thursday May 19, 2016

Discover the magic of traditional Belgian beers at the Oud Beersel Brewery on this fascinating tour and tasting. Founded in 1882, the brewery is located just 10 km south of Brussels in the quaint town of Beersel and is one of the last remaining authentic lambic breweries in Belgium. Unlike other beers, which are brewed with carefully cultivated strains of brewer's yeast, lambic beers are spontaneously fermented from exposure to the wild yeasts native to the Senne Valley. Your visit will include a tour of the brewery and culminate with a tasting of Oud Beersel's specialty lambic offerings including Gueuze, Kriek, and Framboise. Oud Beersel has won a number of top awards at prestigious international beer competitions in the USA, England, Australia, Germany and Belgium.
